SUMMARY

I'm a Product Designer with 4+ years of experience turning complex business needs into clean, intuitive digital products across Fintech, EdTech, Fashion Tech, Transportation and Consumer apps. I specialize in building multi-role design systems, leveraging gamification to boost retention, and using modern AI workflows to prototype rapidly. Passionate about bridging the gap between user experience, product strategy, and technical execution.

TOOLS & SKILLS

Core UX/UI Design: Figma, Design Systems, Information Architecture, Interaction Design, Usability Testing, User Research
AI & Modern Workflows: Figma make, Claude, Cursor, ChatGPT, Rapid Prototyping, GitHub
Strategy & Business: Gamification Mechanics, Design Thinking, Product Strategy
Software & Documentation: Figma design, Figma Slides, Notion, Google Docs
Technical & complementary: HTML/CSS, JavaScript, Video Editing

PROFESSIONAL EXPERIENCE

Albanny Technology

Product Designer | Contract

(March 2024 - Jan 2025)

- **Designed and prototyped responsive web dashboards and mobile applications** across

multi-industry clients, optimizing key checkout and navigation flows to increase client conversion rates.

- **Architected comprehensive design systems and component libraries**, establishing visual consistency and accelerating design-to-development handoff times across projects.
- ●**Led stakeholder presentations and client-facing reviews**, achieving a **100% client approval rate** on final UI/UX deliverables through research-backed design rationale, and 75% buy in for new clients

Ndloo

Product Designer | Full Time **(Promoted to Team lead)**

(February 2025- April 2026)

- **Led end-to-end product design from launch to company acquisition**, designing cross-platform mobile (iOS/Android) and web interfaces for a consumer dating ecosystem.
- ●**Improved 30-day user retention to 10% —** nearly 2x the dating-app category average — across 10,000+ active users, by redesigning onboarding flows, match interactions, and engagement loops.
- ● **Conducted primary UX research** to introduce monetization and social features, including an in-app digital gifting system that boosted daily user interaction.
- ● **Created and maintained scalable multi-platform design systems**, ensuring complete brand and UI consistency while collaborating with engineering for rapid delivery.

FREELANCER / INDEPENDENT PRODUCT DESIGN

Quanvaulte

Product Designer | Freelancing

(October 2025 - July 2026)

- **Architected an end-to-end EdTech platform** for digital skills education (AI, Cybersecurity, Robotics), designing high-fidelity web interfaces across 4 distinct user dashboards: Student, Teacher, Parent, and School Admin.
- **Designed custom 3D character illustrations and a unified visual design system** maintained across all product touchpoints to drive brand recognition and age-appropriate UX engagement for students aged 10–17.
- **Structured a modular learning ecosystem** incorporating interactive labs, gamified leaderboards, automated certificate generation, and community features to maximize course completion rates.
- **Engineered administrative management portals** enabling bulk student enrollments, progress tracking, assignment grading, and custom quiz creation for institutional partners

Webprebuilt

Product Designer | Freelancing

(April 2026 - July 2026)

- Designed a scalable dashboard system for a done-for-you SaaS platform serving Nigerian SMEs, designing a fixed-core-plus-swappable-module sidebar architecture spanning 3 dashboard types — E-commerce, Booking/Reservation, and Listings — deployed across 9 business niches.
- Designed interactive, production-ready form flows for Add Product, Add Service, Add Listing, Discounts, and Add Staff screens, tightening the spec for engineering handoff across every dashboard variant.
- Resolved niche-to-dashboard mapping logic, defining which modules and features activate per business type to keep the core platform lean while supporting 9 distinct industries.

- Developed go-to-market pitch materials and design collateral to position Webprebuilt's website-building services to Nigerian content creators, grounding messaging in accurate SEO and ad-policy framing.

Saintdavies

Product Designer | Freelancing

(2024 – 2025, resumed January 2026 – Present)

- Redesigned the landing page for a real estate marketplace platform, refining the value proposition, hero messaging, and search-to-listing flow to support a growing multi-vertical product.
- Expanded the platform beyond real estate by designing and shipping three new verticals — Hotels/Shortlets, Property Management, and Savings — architected as a unified experience within the existing design system rather than bolted-on features.
- Architected the Property Management module around three distinct dashboard types — Multi-Property, Single-Property, and Tenant — including a view-only access model where owners share or invite access via email links, without requiring full account permissions.
- Designed a dual-purpose Savings module supporting both goal-based home-purchase savings and general savings, requiring distinct user flows and progress tracking under one shared component system.

Tekspecs

Product Designer | Freelancing

(August 2025 - September 2025)

- Designed an end-to-end hospital management / EMR platform covering patient intake, diagnosis, prescriptions, lab tests, billing, and inventory within a single system.
- Architected role-specific dashboards for four distinct hospital personas — Doctor, Nurse, Admin, and Pharmacy/Lab — each tailored to the workflows and permissions specific to that role.
- Designed the full marketing landing page, including hero positioning, feature breakdown, and workflow explainer sections, to support product go-to-market and demo/trial conversion.
- Delivered a complete, standalone product from concept through high-fidelity UI across both the customer-facing site and the internal clinical tooling.

Education

Bachelor of Engineering (B.Eng.)

ELECTRICAL AND ELECTRONIC ENGINEERING(B.ENG)

University of Uyo

2019 - 2025

Balanced full-time coursework with professional design work from 2024 onward, including contract roles at Albanny Technologies and Ndloo.

VOLUNTEERING

COWRYWISE

2023 - 2025

Designed community graphics for meetups and events, supporting brand presence at community-facing gatherings.
